safety Instructions

Congratulations to your new
Multimedia Adapter. Thank you for choosing
a product of Kufatec GmbH.

Please take note that the installation can only be done by vehicles which are using a 12V battery. In particular trucks, all-terrain vehicles and commercial diesel cars including taxis are running often with 24V batteries and an installation is not possible in these kind of vehicles.

Take care to ensure no devices are affected or damaged that are relevant to security or safe operation of the vehicle.

This unit is only for use in the following vehicles. Only connections described within this instruction guide are allowed or required to use for installation.

For damage impact caused by faulty installation, unsuitable connections in inappropriate vehicles Kufatec GmbH assumes no liability.

We advise you that these units process data out of the CAN - protocol from the vehicle. As the supplier of this device we don't know the overall system you are working with. If our device causes damage due to other changes made by to the vehicle Kufatec GmbH assumes no liability.

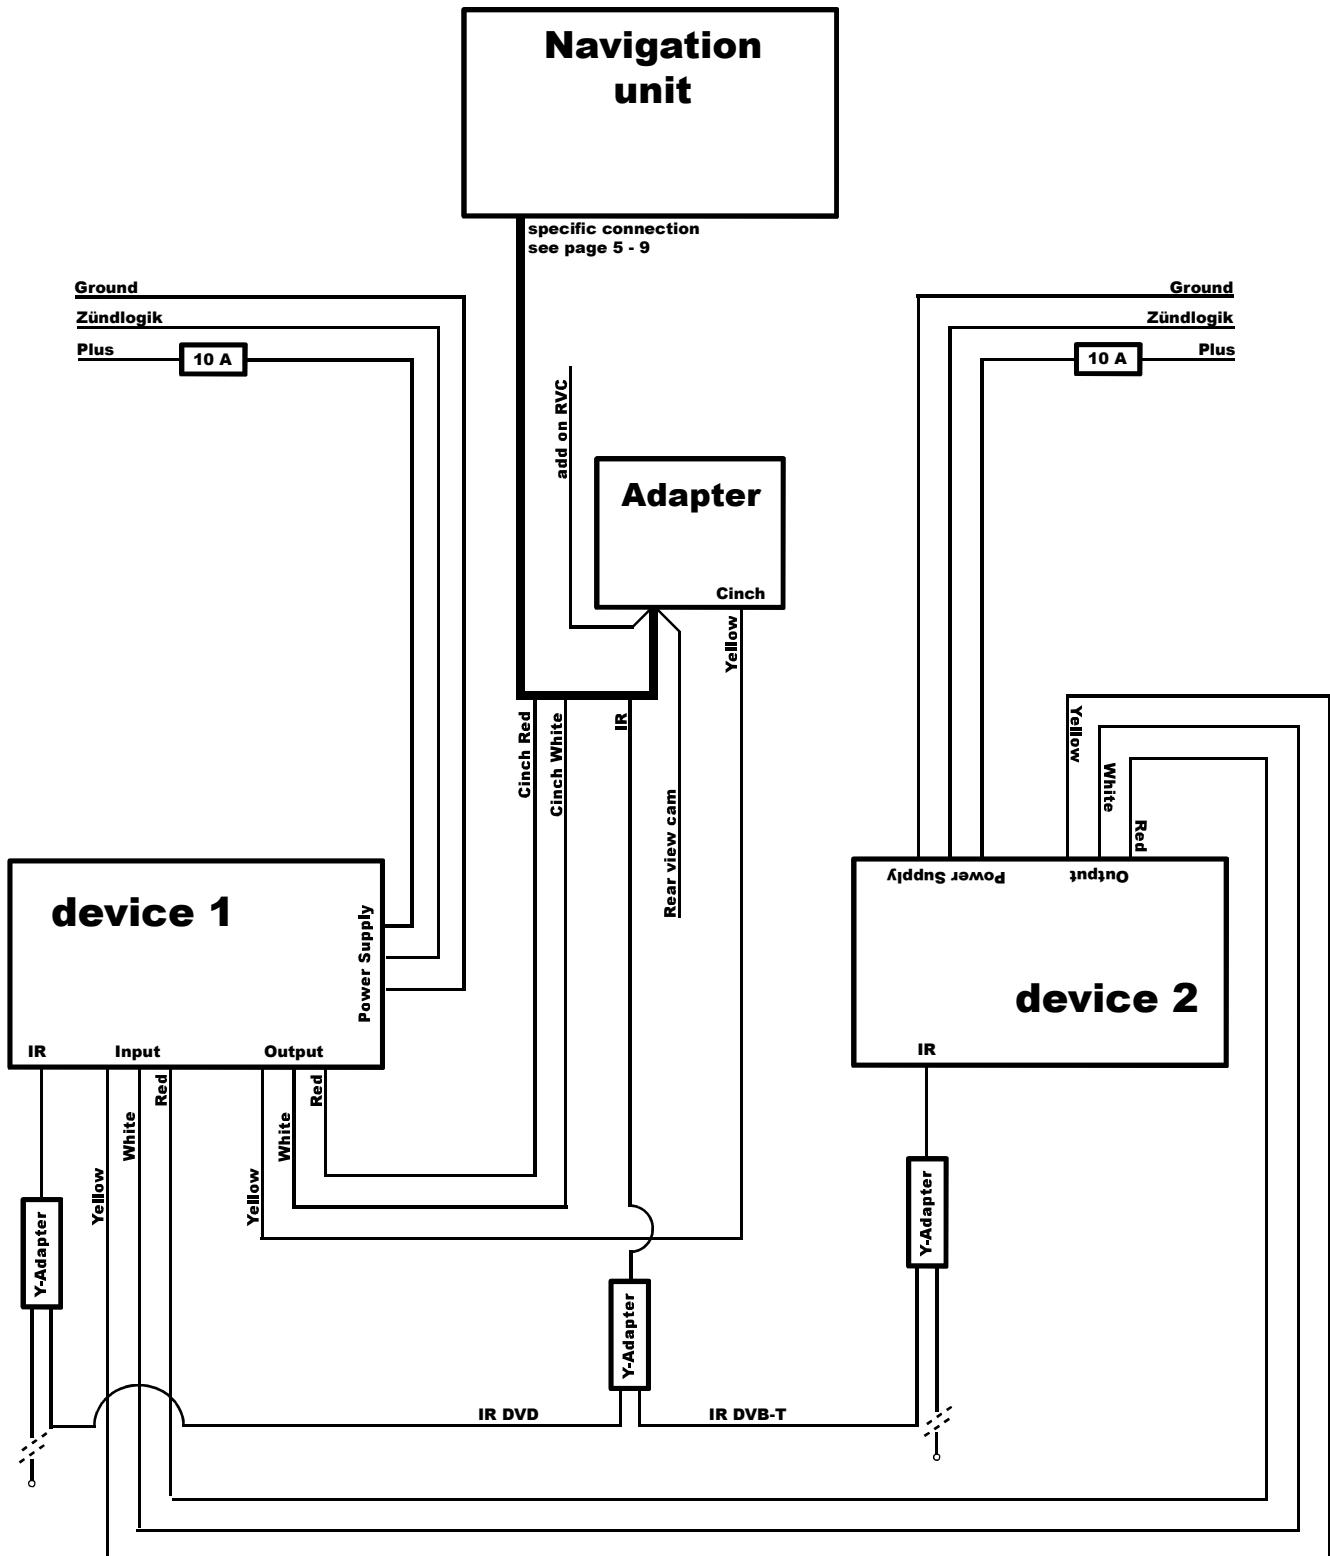

If the car manufacturer's don't agree with the installation of our device by reason of warranty the Kufatec GmbH assumes no liability. Please check conditions and warranty before you begin the installation.

Kufatec GmbH supplier reserves the right to change the device specifications without notice.

Connection diagram

Note VW RNS 510:

- Not suitable for two devices.
- „device 1“ operation only available for DVB-T Receivers (subject to change)

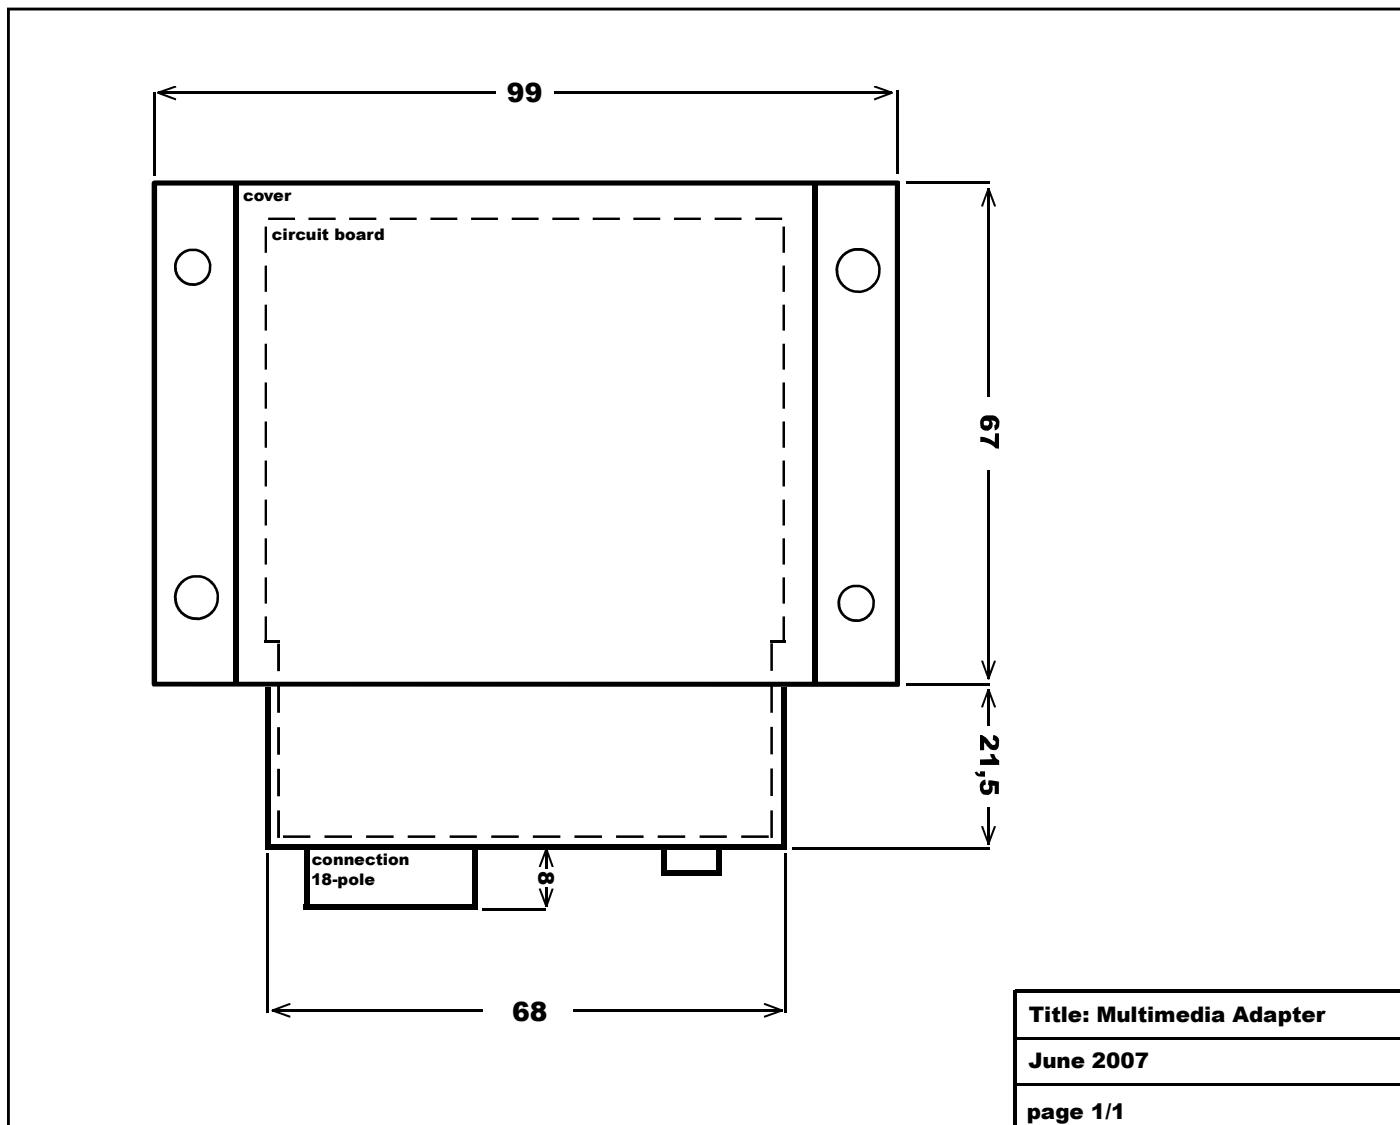

Specifications

Technical details Multimedia Adapter

power supply	-	12 Volt (10 - 15 Volts)
power input	-	170 - 190 mA
standby current	-	4 - 6 mA
dimensions in mm	-	99 x 96,5 x 23
weight	-	100 g
video signals	-	PAL / NTSC
RVC signal	-	NTSC

Specifications

Control lines specific to devices

In order to control the multimedia devices by OEM Navigation you need to have a specific control line which has to be connected between the main wiring and the multimedia device (DVD, DVB-T ...)

Installation instruction for (already) factory fitted (OEM) RVC

In case the car does have already factory fitted rear view camera you need to connect the wiring to the 54-pole connector from control unit for RVC. Depending of vehicle equipment you will need one of the following article-ID's.

The control unit for RVC is located on different locations within the vehicle's. Image 1 is exemplary showing the position regarding to VW Touareg (behind the cover in the trunk on the right hand side).

Disconnect the 54-pole connector from the control unit and remove the housing of the connector as well.

For integration of the wiring (Image 2) please see scheem below:

Vehicle	—	Location of the control unit for RVC
Touareg, Tiguan	—	behind the cover in the trunk on the right hand side (image 1)
Passat 3C Variant	—	behind the cover in the trunk on the right hand side

Image 1

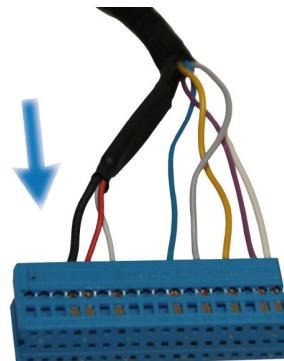

Image 2

wiring	—	Vehicle-wiring
Red (Audio)	—	PIN 5 (if taken remove PIN)
Black (Audio)	—	PIN 4 (if taken remove PIN)
White (Audio)	—	PIN 7 (if taken remove PIN)
Blue	—	PIN 11
Gray	—	PIN 13
Yellow	—	PIN 15
Violett	—	PIN 17
White	—	PIN 18
Black/White (CAN-H)	—	PIN 40
Black/Yellow (CAN-L)	—	PIN 39
Brown (Ground)	—	PIN 44
Red	—	PIN 43

In order to achieve a proper connection we recommend adding the new wires by soldering or crimping. After connecting the wires the soldering area has to be taped properly.

Note: In case of removing PIN 4, 5 and 7 you won't be able to use the factory fitted AUX - IN Connection after installing the interface.

Note Audi RNS-E (R8): In some cases the Audio looms are not connected to the head unit. In that case the audio looms of the delivered wiring needs to connected directly to the head unit (**32-pole connector-Gray**).

PIN 13 - Audio right

PIN 29 - Audio left

PIN 28 - Audio ground

Installation instruction RNS 510 - WITHOUT OEM RVC - High

NOTE: In case the navigation unit does have a **software index higher then 522** the CAN-Gateway need to be coded to TV-Tuner. Please contact your local VW Audi dealer.

In order to identify the softwareindex please push the „**Setup**“ - button of the head unit by turning on the device for about 20 seconds. Another screen will appear which is showing the softwareindex of the head unit.

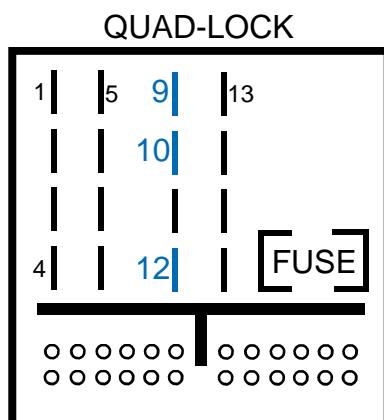

- Tiguan, Golf 5, Touran, EOS, Jetta - Address 19 - Byte 3 - Bit 4 (Gateway Index F, K)
Byte 4 - Bit 7 (Gateway Index L)
 - Touareg (08), T5 (08) - Address 19 - Byte 4 - Bit 4
 - Passat 3C (08) - Address 19 - Byte 3 - Bit 7

NOTE: Is the car already equipped with factory fitted RVC you need to complete the installation by using wiring article-ID 35951.

Please remove the navigation unit using suitable tools, then disconnect the wiring harness from the navigation unit.

With the connection of 4 new wires you will complete the fitting of the interface. Please see scheme below (blue marked figures). In order to achieve a proper connection we recommend both crimping and soldering the new wires.

- | | | | |
|--------------|---|--|--------|
| Black/White | - | Can High | Pin 9 |
| Black/Yellow | - | Can Low | Pin 10 |
| Brown | - | Ground | Pin 12 |
| Red | - | staedy plus source specific to the vehicle | |

Find a suitable position for the interface within the vehicle (glove box). If everything is installed in the correct way, the navigation will show an additional „TV“-button under menu „Media“. By choosing this source the navigation will display the screen of the connected DVB-T Receiver. Make sure the DVB-T Receiver is connected properly to the interface. In case of **version „Basic“** (without control) you need to install an **IR-connection** in order to control the DVB-T Receiver with the remote. The location of the DVB-T within the vehicle is up to the customer.

Installation instructions RNS-E / MFD2

NOTE: If you have the MFD2 you will need to switch off the AV source as well as the AUX source of the navigation unit **before** fitting the interface. Please do as follows:

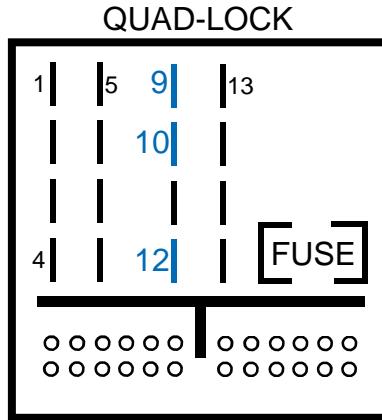

CD → **Settings** → **AV - Source OFF**
 → **AUX - Source OFF**

NOTE: In case the vehicle (MFD2) is already equipped with factory fitted rear view camera you need to use Article-ID 35951

Please remove the navigation unit using suitable tools, then disconnect the wiring harness from the navigation unit.

With the connection of 4 new wires you will complete the fitting of the interface. Please see scheme below (blue marked figures). In order to achieve a proper connection we recommend both crimping and soldering the new wires.

black/white	-	CAN High	PIN 9
black/yellow	-	CAN Low	PIN 10
brown	-	Ground	PIN 12
red	-	Steady plus (from HW index 3.0) source specific to the vehicle	

Find a suitable location for the interface within the vehicle (glove box).

If everything is installed in the correct way, the navigation will show an additional button under menu CD/TV. By choosing this source the navigation will display the screen of the connected multimedia device.

Make sure the multimedia device is connected properly to the interface.

In case of **version „Basic“** (without control) you need to install an **IR-connection** in order to control the multimedia device with the remote. The location of multimedia device(s) within the vehicle is up to the customer.

Note: We suggest coding the head unit (Adress 56) to TV in order to avoid fault entries.

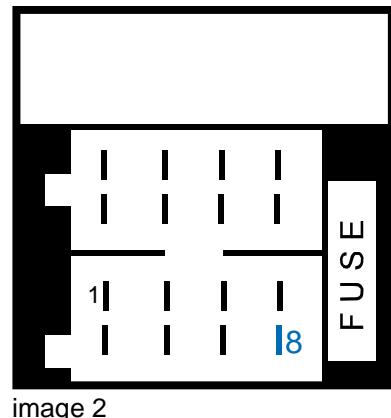

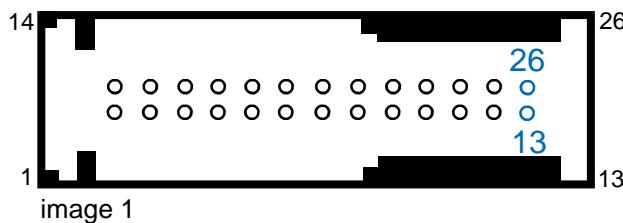

Installation instructions RNS-D / MFD

NOTE: Not suitable for „Non-DX“ Audi head units RNS-D (Version E) (A6 4B, A4 8E).

Please remove the navigation unit using suitable tools, then disconnect the wiring harness from the navigation unit.

With the connection of 4 new wires you will complete the fitting of the interface. Please see scheme below (blue marked figures). In order to achieve a proper connection we recommend both crimping and soldering the new wires.

black/white	-	CAN High	PIN 13
black/yellow	-	CAN Low	PIN 26
brown	-	Ground	PIN 8
red	-	Steady plus (from HW index 3.0) source specific to the vehicle	

Find a suitable location for the interface within the vehicle (glove box).

If everything is installed in the correct way, the navigation will show an additional button under menu CD/TV. By choosing this source the navigation will display the screen of the connected multimedia device.

Make sure the multimedia device is connected properly to the interface.

In case of **version „Basic“** (without control) you need to install an **IR-connection** in order to control the multimedia device with the remote. The location of multimedia device(s) within the vehicle is up to the customer.

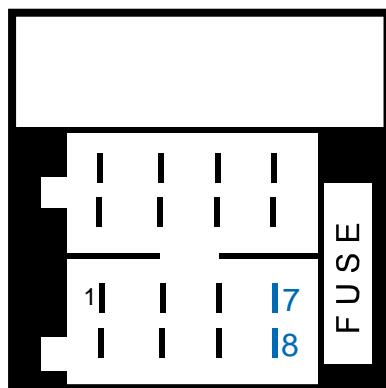

Installation instructions Comand

Please remove the navigation unit using suitable tools, then disconnect the wiring harness from the navigation unit.

With the connection of 2 new wires you will complete the fitting of the interface. Please see scheme below (blue marked figures). In order to achieve a proper connection we recommend both crimping and soldering the new wires.

In case some connections have already been taken you need to disconnect these wires and put it into the identical chambers on the wiring.

brown	-	Ground	PIN 8
red	-	Ignition plus	PIN 7

CAN High	-	18-pole connector of the navigation - PIN 18
CAN Low	-	18-pole connector of the navigation - PIN 17

Find a suitable location for the interface within the vehicle (glove box).

If everything is installed in the correct way, the navigation will show an additional button under menu CD/TV. By choosing this source the navigation will display the screen of the connected multimedia device.

Make sure the multimedia device is connected properly to the interface.

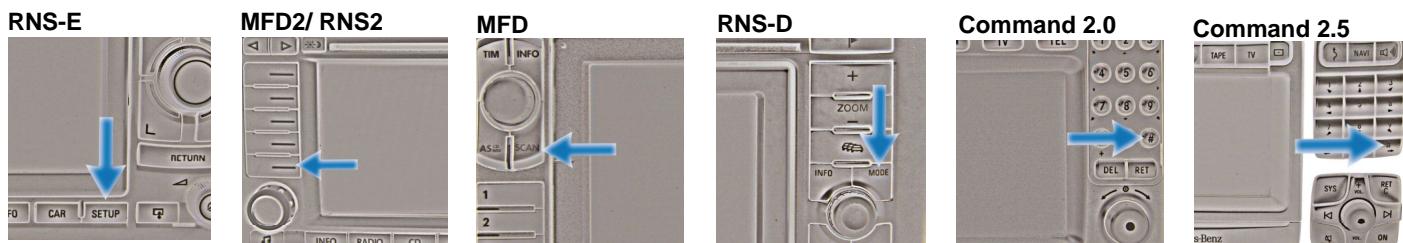

In case of **version „Basic“** (without control) you need to install an **IR-connection** in order to control the multimedia device with the remote. The location of multimedia device(s) within the vehicle is up to the customer.

Guided Setup RNS-E, RNS-D, MFD, MFD 2, RNS 2, Command 2.0, 2.5

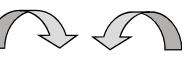

CON	CON: contrast adjustment (range 0 - 63)
BRI	BRI: brightness adjustment (range 0 - 63)
COL	COL: colour adjustment (range 0 - 63)
XPO	XPO: Adjustment of the horizontal image position (range 0 - 63)
RVC	RVC: rear view camera mode Activation (RV01) or Deactivation (RV00) of RVC mode.
1C	1C: Configuration Single - or Dualcontrol 1C00: Control of one device. Dual-control is deactivated. The device has to be selected by menu 2C . In case of two devices please select the first device through menu 1C01 to 1Cxx .
2C	2C: Multimedia devices for Dual-control This mode allows you to select the devices under menu 2C01 to 2Cxx .

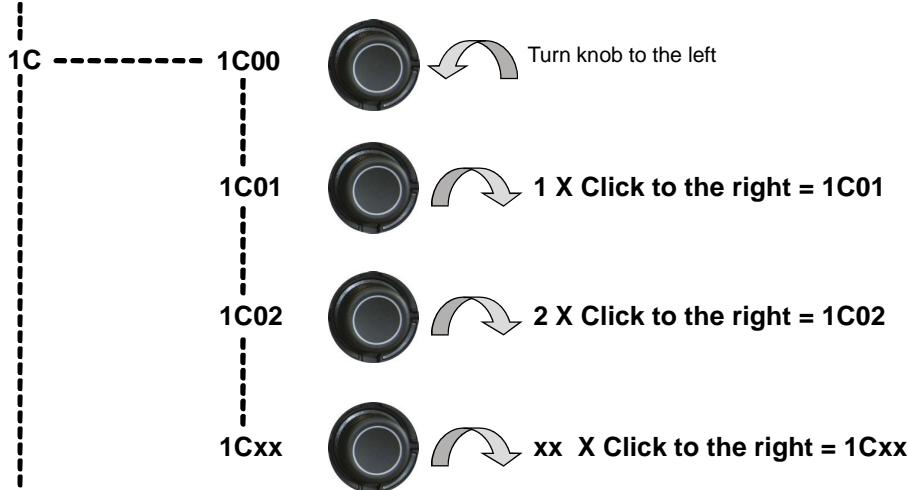

Setup

By pushing the „**SETUP**“-button of the head unit for about **6 Seconds** you will step into the menu.

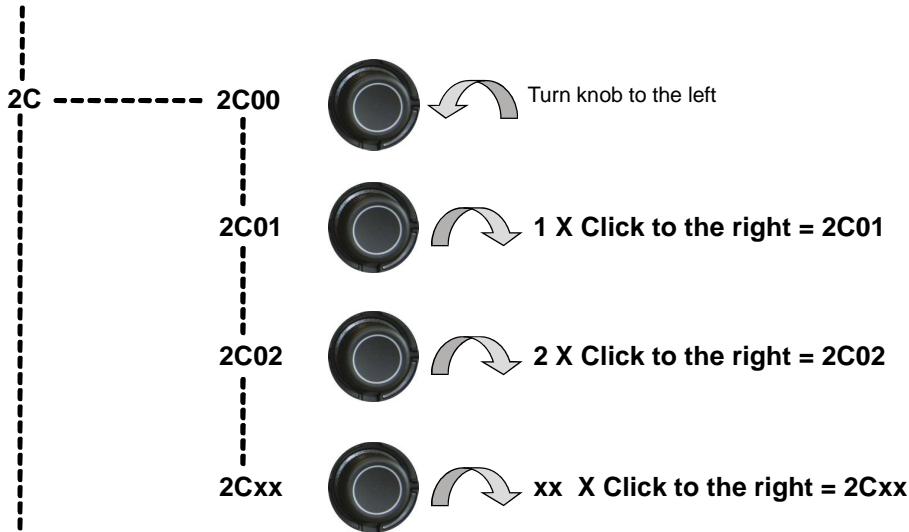

Note: The Setup menu will not appear on the screen of the head unit. The configuration will only be displayed through the instrument cluster - passenger information system (if available) in case of head unit RNS-E as well as MFD2 / RNS2.

Operating instruction RNS-E

By pushing the „**SETUP**“- button (7) for about **6 seconds** of navigation unit you will come to the setup - menu of the interface.
(see guided setup Multimedia Adapter).

In case of installing two devices (dual-control) you can switch the video sources by pushing the button (3) for about 4 seconds.

Operation DVD-Player-Changer

- (1) „Track back“: Track back
- (1) „Track back“ (4 seconds): arrow left remote
- (2) „Track forward“: Track forward
- (2) „Track forward“ (4 seconds): arrow right remote
- (3) „Source“ (4 seconds): source switching
- (4) „Rotate controller“: OK or Enter
- (4) „Rotate controller (4 seconds)“: On/OFF
- (4) „Rotate controller fast right“: fast-forward
- (4) „Rotate controller fast left“: rewind
- (4) „Rotate controller left“: arrow upwards remote
- (4) „Rotate controller right“: arrow downwards remote
- (5) „Return“: Play / Break
- (6) DVD - menu
- (6) Button 4 seconds: USB-button remote
- (6) Disc-button DVD-Changer
- (7) „Setup“: Setup DVD - Player
- (7) „Setup“ (4 seconds): Setup Multimedia Adapter

Operation DVB-T Receiver

- (1) „Track back“: sound down
- (2) „Track forward“: sound louder
- (3) Info button of the remote
- (3) „Source“ (4 seconds): source switching
- (4) „Rotate controller“: OK or Enter
- (4) „Rotate controller left“: channel upwards
- (4) „Rotate controller right“: channel downwards
- (4) „Rotate controller“ (4 seconds): ON/ OFF DVB-T
- (5) „Return“: Exit
- (5) „Return“: For Amprise DVB-T 400 2G („Home“ button)
- (6) EPG button remote
- (7) „Setup“: menu DVB-T Receiver (Setup)
- (7) „Setup“ (4 seconds): Setup Multimedia Adapter

Operation HDD-Player

- (1) „Track back“: Track back
- (1) „Track back“ (4 seconds): rewind
- (2) „Track forward“: Track forward
- (2) „Track forward“ (4 seconds): fast-forward
- (3) Bookmark
- (4) „Rotate controller“: OK or Enter
- (4) „Rotate controller right“: arrow downwards remote
- (4) „Rotate controller left“: arrow upwards remote
- (5) „Return“: Stop / Exit
- (6) Menu
- (7) „Setup“: Setup HDD - Player
- (7) „Setup“ (4 seconds): Setup Multimedia Adapter

Operating instruction MFD 2

By pushing the „**SETUP**“- button (7) for about **6 seconds** of navigation unit you will come to the setup - menu of the interface.
(see guided setup Multimedia Adapter).

In case of installing two devices (dual-control) you can switch the video sources by pushing the button (5) for about 4 seconds.

Operation DVD-Player-Changer

- (1) „Track forward“: Track forward
- (1) „Track forward (4 seconds)“: arrow left remote (Changer)
- (2) „Track back“: Track back
- (2) „Track back (4 seconds)“: arrow right remote (Changer)
- (3) Arrow left remote
- (4) Rewind
- (5) „Source“ (4 seconds): source switching
- (6) USB - button
- (7) „Setup“: Setup DVD - Player
- (7) „Setup“ (4 seconds): Setup Multimedia Adapter
- (8) Arrow right remote
- (9) Fast-forward
- (10) DVD - menu
- (10) Disc-button DVD-Changer
- (11) Eject - button
- (12) ON/ OFF DVD-Player
- (13) „Rotate controller“: OK oder Enter
- (13) „Rotate controller (4 seconds): On/OFF DVD-Changer
- (13) „Rotate controller left“: arrow upwards remote
- (13) „Rotate controller right“: arrow downwards remote
- (14) Return/Exit
- (14) „ESC“: Play / Break (Changer)

Operation DVB-T Receiver

- (1) „Track back“: sound down
- (2) „Track forward“: sound louder
- (3) Info button remote
- (4) arrow left remote
- (5) „Source“ (4 seconds): source switching
- (6) EPG button remote
- (7) „Setup“: menu DVB-T Receiver (Setup)
- (9) arrow right remote
- (12) ON/ OFF DVB-T
- (13) „Rotate controller“: OK or Enter
- (13) „Rotate controller left“: channel upwards
- (13) „Rotate controller right“: channel downwards
- (14) „ESC“: Return

Operation HDD-Player

- (1) „Track forward“: Track forward
- (2) „Track back“: Track back
- (3) Step left
- (3) Push for 4 seconds: rewind
- (4) Step upwards
- (7) Setup: Setup HDD - Player
- (8) Step right
- (8) Push for 4 seconds: fast-forward
- (8) Step downwards
- (12) ON/ OFF HDD
- (13) „Rotate controller“: OK or Enter
- (13) „Rotate controller right“: downwards
- (13) „Rotate controller left“: upwards
- (14) Stop / Exit

notice specific to vehicle

Volkswagen Golf V

Buttons of multi steering wheel (CD/TV mode has to be activated):

Arrow upwards: Track forward

Arrow downwards: Track back

OK-button: OK or Enter

Mute-button: mute (always available)

Operating instruction MFD

By pushing the „SCAN“- button (4) for about **6 seconds** of navigation unit you will come to the setup - menu of the interface.

Operation DVD-Player-Changer

- (1) „Track forward“: Track forward
- (1) „Track forward“ (**4 seconds**): fast-forward
- (1) „Track forward (**4 seconds**)“: arrow left remote (Changer)
- (2) „Track back“: Track back
- (2) „Track back“ (**4 seconds**): rewind
- (2) „Track back“ (**4 seconds**): arrow right remote (Changer)
- (3) „AS“(**4 seconds**): source switching
- (4) „Scan“: Setup DVD - Player
- (4) „Scan“(**4 seconds**): Setup Multimedia Adapter
- (5) „1-button“: arrow left remote
- (6) „2-button“: DVD menu
- (6) „2-button“: Disc-button DVD-Changer
- (7) „3-button“: USB-button remote
- (8) „Return“: play / break
- (9) „Rotate controller“: OK or Enter
- (9) „Rotate controller right“: arrow downwards remote
- (9) „Rotate controller left“: arrow upwards remote
- (10) „4-button“: arrow right remote
- (11) „5-button“: Random-Funktion
- (12) „6-button“: ON/ OFF

Operation DVB-T Receiver

- (1) „Track forward“: channal upwards
- (1) „Track forward“ (**4 seconds**): arrow right remote
- (2) „Track back“: channal downwards
- (2) „Track zurück“ (**4 seconds**): arrow left remote
- (3) „AS“: INFO remote
- (4) „Scan“: Setup DVB-T Receiver
- (4) „Scan“(**4 seconds**): Setup Multimedia Adapter
- (5) „1-button“: sound down
- (6) „2-button“: EPG
- (7) „3-button“: Auto scan
- (8) „Return“: Back
- (9) „Rotate controller“: OK or Enter
- (9) „Rotate controller right“: arrow downwards remote
- (9) „Rotate controller left“: arrow upwards remote
- (10) „4-button“: sound louder
- (11) „5-button“: source switching
- (12) „6-button“: DVB-T Receiver ON/ OFF

By pushing the „MODE“- button (8) for about **6 seconds** of navigation unit you will come to the setup - menu of the interface.

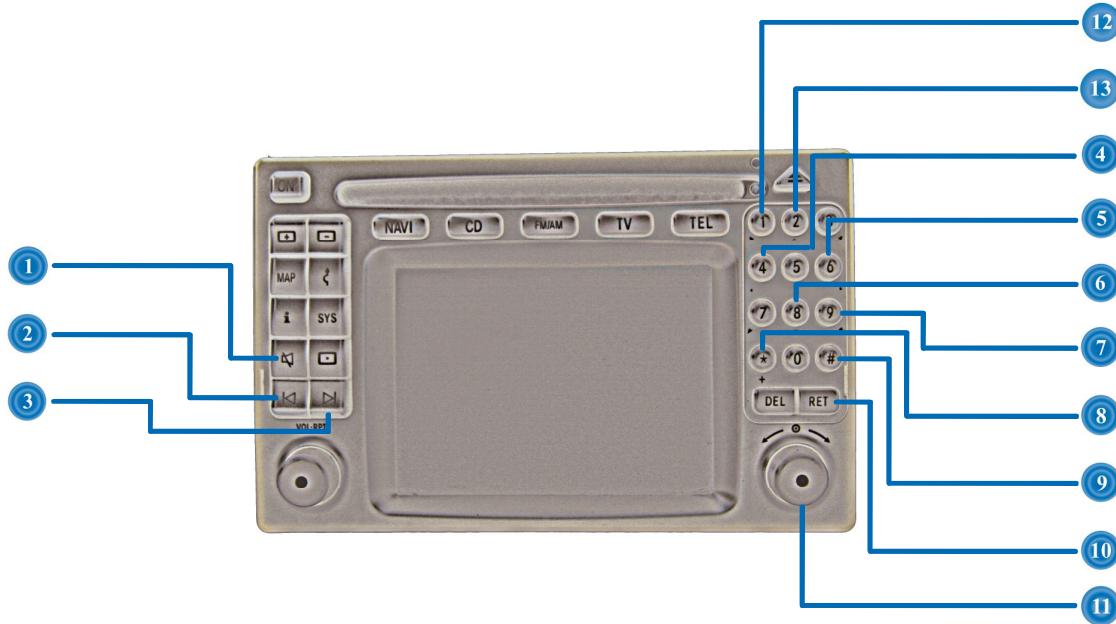

Operation DVD-Player-Changer

- (1) „Track forward“: Track forward
- (1) „Track forward (**4 seconds**)“: arrow right remote (Changer)
- (2) „arrow upwards“: fast-forward
- (2) „arrow upwards (**4 seconds**)“: rewind (Changer)
- (3) „Track back“: Track back
- (3) „Track back (**4 seconds**)“: arrow left remote (Changer)
- (4) „Arrow downwards“: rewind
- (4) „Arrow downwards (**4 seconds**)“: fast-forward (Changer)
- (5) „AS“: USB-button remote
- (5) „AS“ (**4 seconds**): source switching
- (6) „Plus“: arrow right remote
- (7) „Minus“: arrow left remote
- (8) „Mode“: Setup DVD-Player
- (8) „Mode“ (**4 seconds**): Setup Multimedia Adapter
- (9) „Rotate controller“: OK/ Enter

Guided setup RNS 510

By entering the key sequence „Extras“---“V-Text“---“Zoom“ you will come to the setup. By pushing the „Back“ button (image 2) as well as touching the screen again you will reach image 3. Now you are in the first setting (Contrast). By using the rotate-controller as well as the „arrow left, right“ button you have got the possibility for individual set up. In order to reach the next setting you need to enter the key sequence „Extras“---“V-Text“---“Zoom“---“Zurück“ again. Please see menu structure below.

In order to leave the setup please enter „Extras“---“EPG“.

In order to complete the „Fast-Setup“ you need to use the „Arrow up, down“ buttons (Image 2) just after entering the „Zoom“ button. By entering the „Zoom“ button again you will reach the next setting (step by step). With this procedure you will complete the setup without the display of image 3.

2C36 - DVB-T Receiver DVB 600 (from SW 2.92)

Operating instruction RNS 510

Video mode

In order to choose the video-mode please enter the key sequence „Media“---“Video“.

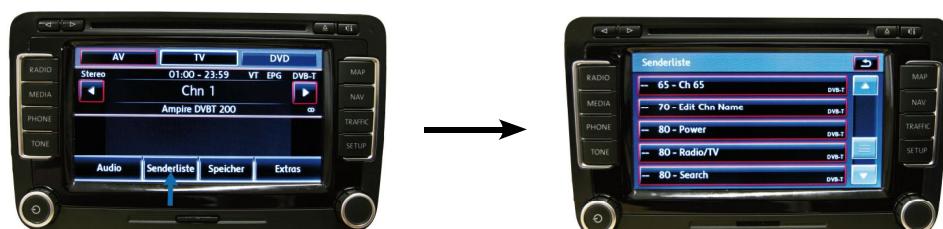

Channel list/ additional features

For choosing a channel (DVB-T) enter the button „**Senderliste**“. You can choose between 65 channels (depends on the DVB-T Receiver).

Furthermore you can choose the following remote options regarding to the devices:

- 80 - Power - ON/ OFF
- 80 - Radio/ TV - Switching between TV-mode and digital radio (only available in specific regions)
- 80 - Search - Channel scanning
- 80 - Video Input - Choosing video-input AV1/ AV2
- 80 - Setup - Menu- button remote
- 90 - Down - Arrow downwards- button remote
- 90 - Exit - Exit- button remote
- 90 - Left - Arrow left- button remote
- 90 - OK - OK- button remote
- 90 - Right - Arrow right- button remote
- 90 - Up - Pfeil-Taste oben FB
- 90 - Next - Next track
- 90 - Previous - Previous track

AV- Inputs

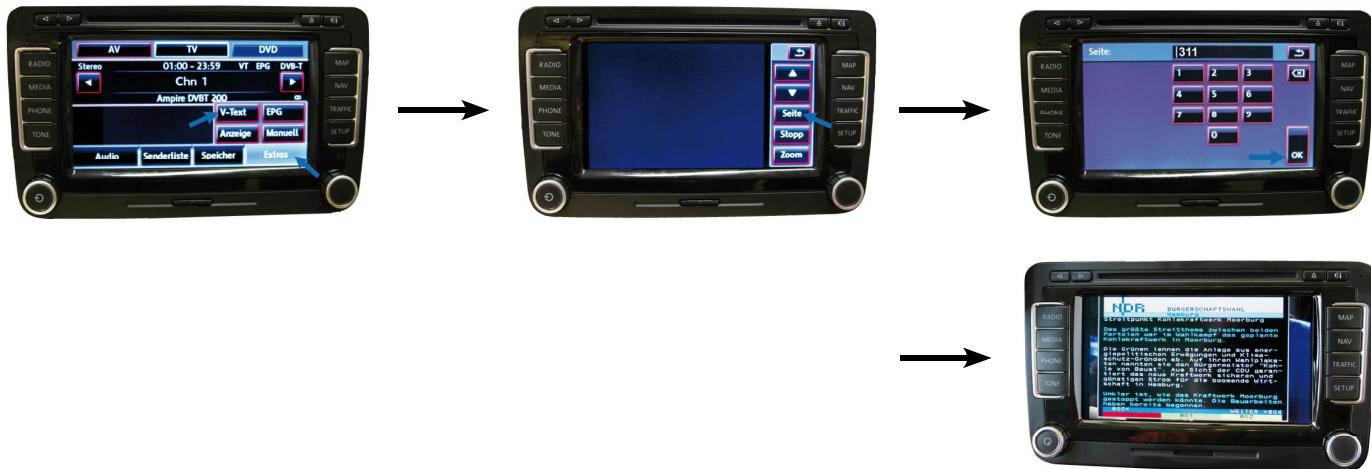

In order to choose the video-inputs AV1/ AV2 you need to enter the key sequence „**Senderliste**“---„**Video Input**“. Before you need to activate the video-inputs through the menu „**Setup - Medien**“.

Operating instruction RNS 510

Video-Text

In order to select the video-text you need to enter the key sequence „Extras“---“V-Text“---“Seite“. Enter the figures and confirm with the „OK“ button.

EPG-Electronic Program Guide

In order to select the EPG you need to enter the key sequence „Extras“---“EPG“---“Auswahl“.

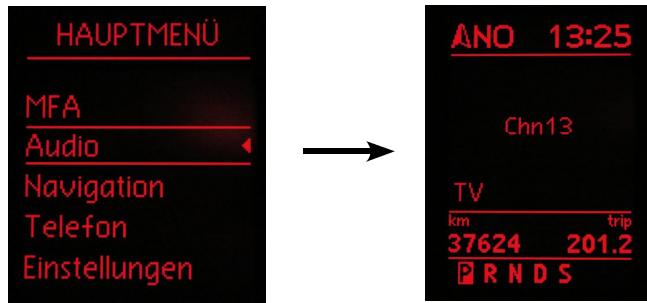

Operating instruction RNS 510

Operation by stalk

By pushing the upper part of the multifunctional stalk about 4 seconds you will reach the main menu of the driver information system. Please choose the menu „**Audio**“ and confirm by pushing the button underneath the stalk.

Now you can switch between the Channels by using the up and down button of the multifunctional stalk.

Note: Please switch the channels in a steady pace. Fast channel switching could cause time delays during channel display.
